www.iimtindia.net

About the Institute

The IIMT Group of Institutions established in 1994, one of pioneering Academic Institution in Greater Noida, committed to provide a value driven culture in a professional environment, is engaged in imparting education in the field of Engineering, Management, Education and Law.

IIMT College of Engineering is privileged to have Incubation Centre by MSME, under which various sponsored projects are running.

VISION

To be among the renowned Institutions providing Engineering and Management Education of Excellence, Empowered with Research, Innovation and Entrepreneurship with high ethical values, catering to the needs of industry and society.

MISSION

- To offer state of the art undergraduate and postgraduate program.
- To be a learner centric institute imbibing experimental innovation and lifelong learning skills, addressing societal problems with high ethical values for nation building.
- To deliver changing demands of industry and academia through our stakeholders.
- To contribute as a professional leader in the growing field of entrepreneurship and research

About The Department

Bachelor of Technology (**Information Technology**) is a four year program (full time) affiliated to Dr. APJ Technical University, Lucknow approved by AICTE. The department focuses on development of practical and application oriented brains. The students are trained through a project based learning approach so that after B.Tech they are ready for joining corporate. Department believes in preparing a competitive platform so just after second year, IT students are trained to develop projects and they start participating in national and international competition.

VISION

To produce competent IT Professionals empowered with Research Aptitude and high ethical values and cater the need of Industry and society.

MISSION

To attain academic & professional excellence with collective efforts of all stakeholders through:

1. Research – To impart quality education with innovative teaching learning processes to develop a culture of research and innovation
2. Industry – Interact with industry academia for better employ-ability of students.
3. Ethical Values/ Society – To inculcate ethical values and social responsibility in students.
