Industrial visit to MCN Solutions Pvt Ltd organized by the Department of Information Technology, 28 February 2020

MCN Solutions is an old custom software development and outsourcing services provider. The purpose of the industrial visit was -

- To interact the students with actual industry personals and visualize students, with industry's working environment in different technical domain like Cloud, Web Development etc.
- To prepare the students for the selection of carrier path in different departments of industry.

Strengths of the visit were Dy. Director (Dr.) Sanjay Pachauri and Head of Department Mr. Mahendra Sharma who encouraged and helped in organizing the visit. Students were accompanied by the Industrial visit coordinator Mr. Lakhan Singh who guided them in all aspects. Reaching the destination via Institute's transportation facility, the visit was indeed very informative with the introduction of company profile, principles and boom to latest technologies.

Industrial Visit acts as a bridge between Academics and industry front. As a result, it helped our students to –

•   Understand the importance of discipline and sincerity at workplace,

•   Clarify the technical areas they need to work upon and confident to face interviews,

•   Understand the career in outsourcing services via SCM (Supply Chain Management) Cycle.

Industrial visit at Okaya Tower, Noida organized by the Department of Information Technology Engineering, 14 Sep 2019

The objective of this industrial visit was to provide students an insight regarding internal working of companies. Industrial visit helps to bridge the gap between the industries and the Academics and it really correlates the theoretical knowledge and the practical knowledge. Latest technologies are shown to the students through industrial visits. The department organized an Industrial Visit on 14 Sep 2019 for the students of IT 3 year. The students visited Okaya Tower Sector 62 Noida. Students learnt the whole Software Engineering design flow with the help of advanced industry tools. Key modules are converted on design, testing with the help of Technique tools.

Workshop on Android Development organized by the Department of Information Technology 18 Feb 2020

The department of Information Technology organized a workshop on android development by Dr.Sanjay Pachauri on Tuesday; 18Feb 2020 Students of IT 3 attended this workshop. Venue was Smart Class Lab. The intent is to keep the students updated with the latest technologies. A demo session on "Android" was organized with the aim of introducing students to then career opportunities in the field of developing apps and gaming through android. He divided the session into four introductory parameters: Session –I: Introduction of Java concepts

Session II: what is android and Android Architecture?

III: Android Applications Development

IV: Introduction of How to develop different apps and tools using android.
