SESSION ON

2 Days Online Course on “Design Thinking & Business Innovation”

A Brief Report of the Event

1. Date: 28th & 29th May. 2021
2. Time: 09:15 AM onwards
3. No of Participants:
 - a) Students -----106
 - b) Faculty members ----23
4. Name and details of the Resource Person:
 - a) Guest Speaker :
 - b) Prof. Dr Stuti Sahni & Dr. Amandeep Dhaliwal, Assistant Professor in Manav Rachna University, Faridabad
5. Objective:
 1. The business case for innovation
 2. Approaches to innovation
 3. Planning innovation
 4. Encourage innovation in your business
 5. Funding innovation

Brief Write up on the Programme/Event : Successful Business Models on 28 & 29-May 2021 by Prof. Dr. Dhaliwal & Sahni was interactive. The session started with Welcome by Dean MBA to the Guest and the participants. Dr. Jha started his session after invitation and described in length about various aspects of design thinking and innovation. It is important to be clear about the difference between invention and innovation. Invention is a new idea. Innovation is the commercial application and successful exploitation of the idea.

Fundamentally, innovation means introducing something new into your business. This could be:

- improving or replacing business processes to increase efficiency and productivity, or to enable the business to extend the range or quality of existing products and/or services
- developing entirely new and improved products and services - often to meet rapidly changing customer or consumer demands or needs
- adding value to existing products, services or markets to differentiate the business from its competitors and increase the perceived value to the customers and markets

Innovation can mean a single major breakthrough – e.g. a totally new product or service. However, it can also be a series of small, incremental changes.

Whatever form it takes, innovation is a creative process. The ideas may come from:

- inside the business, e.g. from employees, managers or in-house research and development work
- outside the business, e.g. suppliers, customers, media reports, market research published by another organisation, or universities and other sources of new technologies

Success comes from filtering those ideas, identifying those that the business will focus on and applying resources to exploit them.

6. The Chief Guest delivered on the following :

Innovation in your business can mean introducing new or improved products, services or processes.

Analyse the marketplace

There's no point considering innovation in a vacuum. To move your business forward, study your marketplace and understand how innovation can add value to your customers. For more information on analysing your marketplace, see the page in this guide on planning innovation. Identify opportunities for innovation

You can identify opportunities for innovation by adapting your product or service to the way your marketplace is changing. For example, if you're a specialist hamburger manufacturer, you might consider lowering the fat content in your burgers to appeal to the health-conscious consumer.

You could also develop your business by identifying a completely new product. For example, you could start producing vegetarian as well as meat burgers.

You could innovate by introducing new technology, techniques or working practices - perhaps using better processes to give a more consistent quality of product.

The event was attended by more than 81 participants , students and faculties from across the nation eminent colleges and people from different profession and walks of life .

The event coordinator began the session by a thought provoking brief and introduced the Guest Speaker in a short while . The Guest Speaker delivered a wonderful lecture on the event and finally the vote of Thanks was given by the Event Co-ordinator and the session was given a grand closure .

7. Learning Outcome :

Make sure you have processes and events to capture ideas. For example, you could set up suggestion boxes around the workplace or hold regular workshops or occasional company away days to brainstorm ideas.

Create a supportive atmosphere in which people feel free to express their ideas without the risk of criticism or ridicule.

Encourage risk taking and experimentation - don't penalise people who try new ideas that fail.

Promote openness between individuals and teams. Good ideas and knowledge in one part of your business should be shared with others. Teamwork, newsletters and intranets can all help your people share information and encourage innovation.

Stress that people at all levels of the business share responsibility for innovation, so everybody feels involved in taking the business forward. The fewer the layers of management or decision making in your organisation, the more people feel their ideas matter.

Reward innovation and celebrate success. Appropriate incentives can play a significant role in encouraging staff to think creatively.

Look for imagination and creativity when recruiting new employees. Remember that innovative thinkers aren't always those with the most impressive list of qualifications.

8. Feedback:

Akash Srivastava: “very informative session on initiating a start-up”

Prof Praffula Ranjan: “ session was very effective learnt a lot ”

Indradeep Verma :“ The presentation was very nice” .

Dr. Poonam Gupta: “very productive session for young minds”.

Ravi Kumar :“thanks IIMT for organising such a session” .

9. Budget: The cost incurred in Organising the event was INR 6780/- .

1. Objective: (Maximum 100 Words) The objective lies in the methods required.

If you want to grow your business in order to become more successful and profitable, there are a few ways that you can go about achieving that goal.

Though it will be a slow path forward, you might choose to plod along your current path, growing incrementally as you perfect your existing products and business models. Instead, you might choose to grow your business by merging or acquiring others, which is faster, but also typically a much more expensive avenue for growth. Or you might choose to evolve by rethinking your product

or business model—or both—from the ground up, which is a process that can lead to rapid expansion and allow you to scale your business very quickly.

This potential for growth is likely the reason that, in a recent survey conducted by The Boston Consulting Group, 79 percent of surveyed executives claimed innovation ranked among their top three business initiatives—the highest percentage since the survey began almost a decade ago. Furthermore, the BCG notes that organizations consistently earning high rankings in the annual “top 50 most innovative companies” all have a common focus on science, technology, and development. These companies continue to grow while staying one step ahead of the competition because they value the positive impact of innovation.

2. Benefit in terms of learning/Skill /Knowledge Obtained: (150 Words)

Understand the motivation for, and best practices of, an agile approach to, In order to drive business growth, stay relevant in changing times, and differentiate from the competition, business leaders must be able to think creatively and embrace innovation into their business models. This doesn’t mean that a willingness to innovate is the only ingredient for success, however: leaders must also have a solid understanding of how to go about bringing that innovation to life.

One way to do this is by gaining experience working on exciting, challenging, and innovative projects, as doing so will expose you to the skills needed to become an innovation driver within your organization. A master’s degree in innovation is designed to not only help you hone these specific skill sets, but also provide you with real-world, hands-on experiences that will make you an effective innovator.

1. Objective: (Maximum 100 Words) The goal is to instill in young minds an optimistic agile working approach by teaching them the methods required to develop a new product – the tools and techniques required as technology advances, as well as the financial aspects and their fulfillments using proper documentation and resolving issues and challenges that have plagued the industry as a whole.
2. Benefit in terms of learning/Skill /Knowledge Obtained: (150 Words)

Formalities and Preparation for The Launching a Product in The Market for your business model down into easily-understood segments: Key Partners, Key Activities, Key Resources, Value Propositions, Customer Relationships, Channels, Customer Segments, Cost Structure, and Revenue Streams.

By digging into these elements of your company, you can recognize and act on areas that can be improved. It also reveals clear paths on which to build your organizational innovation strategy.

Gaining a better understanding of your business never hurts. It helps you communicate your goals to your team. It helps communicate to clients why they should do business with you. It helps pull into focus what your business does and how it will continue to do it - successfully - into the future.

SESSION
ON

“Financial Maintenance for a Start-up during its Seed Stage”

A Brief Report of the Event

1. Date: 3rd May 2021
2. Time: 11:00 AM onwards
3. No of Participants:
 - a) Students ----- 107
 - b) Faculty members ---- 22
4. Name and details of the Resource Person:
 - a) Guest Speaker :
Dr. Vinit Kumar Jha Utpal
 - b) Event Coordinator:
Prof. R.K Tomar, HoD, Department of MBA
5. Objective:
 1. To develop more qualified leads and more revenue. But starting a business isn't one of those.
 2. The economic conditions are right to start a company and whether you can successfully penetrate the market with your solution.
 3. In order to build and run a successful business. If you'll also need to create and fine-tune a business plan.

6. Brief Write up on the Programme/Event : Successful Business Models on 03-May 2021 by Prof. Dr. Vinit Kumar Jha Utpal was interactive. The session started with Welcome by Dean MBA to the Guest and the participants. Dr. Jha started his session after invitation and described in length about various Business Projects. In his presentation he covered various successful Business Initiatives who have made a mark in recent past. His insights about the financial maintenance during the development stage of business were remarkable. He covered many of the Financial Institutions; some of them were IDBI, SBI, PNB etc. How these startups grew exponentially was explained by Dr. Jha. It was any eye opening session. Participants asked many questions about their life goal which were answered aptly by Prof. Dr. Jha. At the end of the session participants gave a very good feedback.

The Chief Guest delivered on the following:

Everyone wants more visitors, more qualified leads, and more revenue. But starting a business isn't one of those "if you build it, they will come" situations. So much of getting a startup off the ground has to do with timing, planning, and the market, so consider if the economic conditions are right to start a company and whether you can successfully penetrate the market with your solution.

In order to build and run a successful company, you'll also need to create and fine-tune a business plan, assess your finances, complete all the legal paperwork, pick your partners, research apps for startups growth, choose the best tools and systems to help you get your marketing and sales off the ground ... and a whole lot more.

7. Learning Outcome :

- Describe the essential characteristics, and identify, using examples, the connections between the characteristics of a good business
- Describe the elements of a basic business development process and illustrate the variety of different life cycles
- Understand the motivation for, and best practices of, an agile approach to business development
- Identify the different kinds of models used in the development of business and describe the relationship between models, viewpoints, and business development.

8. Feedback:

Ganesh Yadav: “very informative session on initiating a startup”

Prashant Kumar: “session was very effective learnt a lot”

Dr Richa Sharma: “The demonstration and presentation was very nice”

Prof Naveen Rathee: “very productive session for young minds”.

Prof Jitendra Singhal: “thanks IIMT for organising such a session”.

9. Budget: The cost incurred in Organising the event was 3800/- INR

 - b) Event Coordinator:
Prof. (Dr.) Prafulla Ranjan, Dean, Department of MBA
5. Objective:
 1. To develop more qualified leads and more revenue. But starting a business isn't one of those.
 2. The economic conditions are right to start a company and whether you can successfully penetrate the market with your solution.
 3. In order to build and run a successful business. If you'll also need to create and fine-tune a business plan.

Brief Write up on the Programme/Event:

Angel Investment/Venture Capital Opportunity for Early Stage Entrepreneur on 03-June 2021 by Mr Gopal Ranjan was very interactive session. The session started with Welcome by Dean MBA to the Guest and the participants. Mr Ranjan started his session after invitation and described in length about various Business Projects. In his presentation he covered various successful Business Initiatives who have made a mark in recent past. His insights about the financial maintenance during the development stage of business were remarkable. He covered many of the Financial Institutions; some of them were IDBI, SBI, PNB etc. How these start-ups and new opportunities grew exponentially was explained by Mr. Ranjan. It was an eye opening session. Participants asked many questions about their life goal which were answered aptly by Mr. Ranjan. At the end of the session participants gave a very good feedback.

The Chief Guest delivered on the following:

Everyone wants more visitors, more qualified leads, and more revenue. But starting a business isn't one of those "if you build it, they will come" situations. So much of getting a startup off the ground has to do with timing, planning, and the market, so consider if the economic conditions are right to start a company and whether you can successfully penetrate the market with your solution.

In order to build and run a successful company, you'll also need to create and fine-tune a business plan, assess your finances, complete all the legal paperwork, pick your partners, research apps for startups growth, choose the best tools and systems to help you get your marketing and sales off the ground ... and a whole lot more.

6. Learning Outcome :

- Describe the essential characteristics, and identify, using examples, the connections between the characteristics of a good business
- Describe the elements of a basic business development process and illustrate the variety of different life cycles
- Understand the motivation for, and best practices of, an agile approach to business development

- Identify the different kinds of model used in the development of business and describe the relationship between models, viewpoints and business development.

7. Feedback:

Ganesh Yadav: “very informative session on initiating a startup”

Prashant Kumar: “session was very effective learned a lot”

Dr Richa Sharma: “The demonstration and presentation was very nice”

Prof Naveen Rathee: “very productive session for young minds”.

Prof Jitendra Singhal: “thanks IIMT for organizing such a session”.

8. Budget: The cost incurred in Organising the event was 3950/- INR

9. Photos of the Session with Labelling :

The banner features the logos of the MoE IIMT Engineering Innovation Cell & Department of MBA, IIMT College of Engineering, and the Institution's Innovation Council. It also includes the IIMT crest and a circular portrait of the guest speaker, Mr. Gopal Ranjan.

Workshop ON

“Business Model Canvas”

A Brief Report of the Event

1. Date: 26th May 2021
2. Time: 10.30-11:30 am
3. No of Participants:
 - a) Students ----- 101
 - b) Faculty members ---- 16
4. Name and details of the Resource Person:
 - a) Guest Speaker :
 - b) Dr. Pratibha Goswami; Associate Professor in Management in IIMT College of Engineering.
 - b) Event Coordinator:

Prof. (Dr.) Prafulla Ranjan, Dean: Department of MBA
Prof. R. K. Tomar, Head: Department of MBA
5. Objective:
 1. Does our product or service solve a problem for people?
 2. For which people?
 3. How is the solution?
 4. How much money could we make with it?

5. How high are the costs?
6. Which channels do we use to reach out to customers and sell our product?
7. What is our competitive advantage?
8. Which partners do we need, if any?

Brief Write up on the Programme/Event: Business Model Canvas on 26th May 2021 by Dr. Pratibha Goswami interactive. The session started with Welcome by Dean MBA to the Guest and the participants. Dr. Goswami started his session after invitation and described in length about various Business Models Canvas. In his presentation he covered various successful Business Initiatives who have made a mark in recent past. His insights about the business models and the way these business entities are generating revenue was remarkable. He covered many of the Business Houses; some of them were OYO, Zomato, Swiggy etc. How these startups grew exponentially was explained by Dr. Goswami. It was an eye opening session. Participants asked many questions about their life goal which were answered aptly by Prof. Dr. Goswami.

9. The Chief Guest delivered on the following :

- Use of well-known frameworks to quickly change the product according to market needs.
- Use of evolutionary prototyping and experimentations via existing components.
- Ongoing customer acceptance through early adopters' focus groups;
- Continuous value delivery, focusing on core functionalities that engage paying customers.
- Use of metrics to quickly learn from consumers' feedback and demand.
- Use of easy-to-implement tools to facilitate Software development and handle fast-paced, changing information.

The event was attended by more than 150 participants , students and faculties from across the nation eminent colleges and people from different profession and walks of life .

The event co-ordinator began the session by a thought provoking brief and introduced the Guest Speaker in a short while . The Guest Speaker delivered a wonderful lecture on the event and finally the vote of Thanks was given by the Event Co-ordinator and the session was given a grand closure .

10.Learning Outcome :

- Describe the essential characteristics, and identify, using examples, the connections between the characteristics of a good software system
- Describe the elements of a basic software development process and illustrate the variety of different life cycles
- Understand the motivation for, and best practices of, an agile approach to software development
- Identify the different kinds of model used in the development of software and describe the relationship between models, viewpoints and software development.

11.Feedback:

Prof Praffula Ranjan: “very informative session on initiating a start-up”

Indradeep Verma: “ session was very effective learnt a lot ”

Ravi Kumar :“ The presentation was very nice” .

Dr. Poonam Gupta: “very productive session for young minds”.

Akash Srivastava :“thanks IIMT for organising such a session” .

12.Budget: The cost incurred in Organising the event was INR 4250/- .

13.Photos of the Session with Labelling :

The banner features the logos of the Institution's Innovation Council (Ministry of HRD Initiative), IIMT College of Engineering Greater Noida, and the Indian Institute of Management Lucknow. It also includes the text "MoE IIMT ENGINEERING INNOVATION CELL & DEPARTMENT OF MBA" and "is jointly organizing a session on".

1. Objective: (Maximum 100 Words) The goal is to instill in young minds an optimistic agile working approach by teaching them the methods required to start a business – the tools and techniques required as technology advances, as well as the financial aspects and their fulfillments using proper documentation and resolving issues and challenges that have plagued the industry as a whole.
2. Benefit in terms of learning/Skill /Knowledge Obtained: (150 Words)

The Business Model Canvas breaks your business model down into easily understood segments: Key Partners, Key Activities, Key Resources, Value Propositions, Customer Relationships, Channels, Customer Segments, Cost Structure, and Revenue Streams.

By digging into these elements of your company, you can recognize and act on areas that can be improved. It also reveals clear paths on which to build your organizational innovation strategy.

Gaining a better understanding of your business never hurts. It helps you communicate your goals to your team. It helps communicate to clients why they should do business with you. It helps pull into focus what your business does and how it will continue to do it - successfully - into the future. The Business Model Canvas is an invaluable tool for start-ups and Fortune 500 staples alike.
