IT DEPARTMENT
IIMT COLLEGE OF ENGINEERING

A Message from the desk of Editor, InfoMania

Welcome to the VIII issue of our Newsletter, InfoMania!

For this edition I am really proud that we are about to bring up this issue with the moments that areto be remembered as we have articulated the activities of the IT Department in a frame of achievements by our faculties, our students and staff. These activities have provided us a fantastic experience in collaboration of knowledge sharing, learning, with extensive participation from every member of the Department on expanded horizon.

As an Editor of "Info Mania" it is always my aim that I should maintain the balance between all the contents of the newsletter so that our reader can enjoy the experiences shared here as the part of it.

I am a firm believer that by creating new venues for learning in a way that our readers are going to enjoy the visuals by presenting them in an accordable memory will be of worth as they will definitely feel the necessity of it.

At IT Department we create, we impart, we support and we cater the need of skills and talents of our students through our departmental and academic activities.

Being the IT department, it is always our responsibility to provide our students a combination of soft skills and personality development activities to make them corporate ready in abest way.

I am really thankful to Director Sir, Dean Sir and my supportive faculty members who have supporting me in bringing up this issue in a creative form.

ALUMNI CONNECT
ON 25-04-2022

IT department organized an Alumni Connect Session on the topic "How to become a successful entrepreneur" on 25th April 2022. The speaker for the guest lecture was Mr. Ankur Pandey who is alumnus of batch 2017-2021 currently working as a director in Fix ours Etech and networking soln. pvt. Ltd. Fix ours is a well-planned startup that aims to solve all your problems with just a click. They are your genie who is dedicatedly working day and night to provide you a range of day to day services at the BEST prices! They provide you with the one stop destination that provides services ranging from Automobile repair to scrap collection, that too at your own convenience.
He started workshop by talking about his journey from college to start up and also told that how he got motivated for the start-up then he told the key point to becoming a successful entrepreneur is
Innovation. He told that there is no single absolute profile on who can turn out to be an entrepreneur. Successful entrepreneurs arise in different gender, race, ages, and income levels. They differ in experience and education. According to research, most successful entrepreneurs have certain personal attributes in common. They include determination, leadership, flexibility, creativity, self-confidence, passion, and 'smarts'. Possessing these personal attributes is just a start, executing them properly and to maximum is what we expect from an entrepreneur. Though, you must have a vision and execute it consequently. According to Thomas A. Edison, "Vision without execution is hallucination."

Being successful is your main objective and if won't think about success then your dream might fade before you achieve it. Thinking success will keep your mind focused on what you want to be hence, it is a vital feature for any entrepreneur to have for them to realize success In the end, few questions were discussed related to the session. The session was full of knowledge and motivation for all the spectators.

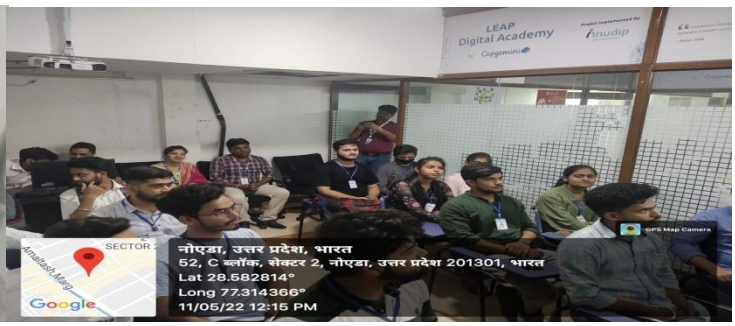
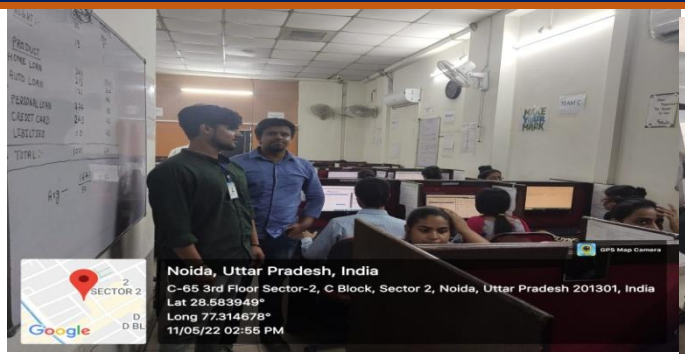
Field Exposure Visit to Incubation Unit/ Patent Facilitation Centre/ Technology Transfer Center
Anudip Foundation (Skill Development Wing) Noida, on May 11, 2022

Objective:

Objective of Visit to Incubation Unit of Anudip Foundation (**skill development** Wing) Noida is considered as one of the tactical methods of learning. The main reason behind this- it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim Visit to Incubation (**skill development** Wing) is to provide an exposure to students about skill development.

Visit exposure-





Out Come:

A site visit to Anudip Foundation in Noida, Gautam Buddh Nagar, Uttar Pradesh was organized by the Information Technology Department of IIMT College of Engineering, Greater Noida on 11th May, 2022.A group of 38 students got an opportunity to learn the skill of software industry accompanied by faculty member Mr. Sanjay Gupta (Assistant Professor of Information Technology Department) and Ms. Indu Chaudhary (Training & Placement Cell). Through **Anudip Foundation (Skill Wing) Noida** students get awareness about new skills.Technology development is a main factor, about which a students should have a good knowledge. Visiting different companies actually help students to build a good relationship with those companies. We know building relationship with companies always will always help to gain a good job in future. After visiting an industry students can gain a combined knowledge about both theory and practical.Students will be more concerned about earning a job after having an industrial visit.
