About IIMT Group of Colleges

The IIMT, as a group, is a large and diversified group and imparts knowledge in the field of Engineering, Management, Medical Sciences, Hotel Management, Nursing, Education, Law etc. The educational group has been dedicated towards providing quality professional education through well-accredited courses, Seminars, Conferences, Guest Lectures, Industrial visits and excellent Academic facilities. We believe in holistic development of students with strong foundation based on pillars of knowledge, intellect and values. The programs are structured to keep pace with the present dynamic and globalized scenario meeting the requirement of industry and education. We are dedicated to deliver excellence in our academic programs.

About IIMT College of Pharmacy

IIMT College of Pharmacy Greater Noida established in the year 2006, under IIMT group of Colleges with vision to impart quality education and create competent Pharmaceutical professionals & researchers with basic human ethics. The institute emerged as one of the reputed institutions providing quality education in diploma, degree and postgraduate courses in Pharmacy in Delhi NCR region. Our alumni proved to be boon to the healthcare and Pharmaceutical sector. The institute established solid foundation knowledge through highly qualified faculty who strive to impart quality pharmaceutical education and skills to our students by focusing in depth and adaptive learning practices. The innovative and need based teaching and state of art in fracture facilities at our institute with hands-on practical experience led to overwhelming success of our students.

About Conference

The world is still trying to cope up with the challenges of Covid-19 Pandemic, which provoked the emergence of new era in Pharmaceutical Sciences and Health care sector. Novel research and discoveries aided in development of vaccines and ways to overcome this pandemic situation. The prime objective of this conference is to provide an opportunity for the close interaction amongst researchers with varied interests, in diverse fields of the research related to Covid-19. It provides a common platform to the scientists, academicians and industry personnels to put forth the recent challenges confronted which led to the innovations and implementation of new ideas and emerging novel opportunities in the field of Pharmaceutical Sciences.
